э.т.э. FIGGERIT

Fill in as many of the figgerits, using the *clues*, as you can. Then take the letters from the figgerits and put them into the *solution* by following the matching number. Some of the numbers may show up in more than one figgerit. If they do, remember that A NUMBER DOES NOT HAVE MORE THAN ONE LETTER. For example, in DIED, 12 is 'E' so EVERY 12 is 'E'. Now a letter may have more than one <u>number</u>. For example, even though 12 is 'E', some other number might also be 'E'. We have DIED filled in for you to start you off. Notice how 12 shows up four times and an 'E' is over every slot.

Read Lady Gwendolyn's Scrapbook of the Saints in order to solve the clues and find the solution.
