

CRYPTOQUIZ

All the italicized words below are disguised in a code. The word “*XHGMEO*” is a code for the real word “**CRAFTS**”. The “*G*” in the code takes the place of “**A**” in the real word and so on for the rest of the letters. Then every “*G*” in any coded word will be replaced by an “**A**” in the real words. This helps give you clues to solve each word. All of the real words will answer the following question:

WHAT DIFFERENT THINGS DO RICHARD AND SARAH HELP WITH?
