CRYPTOQUIZ

All the italicized words below are disguised in a code. The word "*EVHYQYHP*" is a code for the real word "**NATIVITY**". The "*Y*" in the code takes the place of "**I**" in the real word and so on for the rest of the letters. Then every "*Y*" in any coded word will be replaced by an "**I**" in the real words. This helps give you clues to solve each word. All of the real words will answer the following question:
